Delta Sigma Pi

America's Foremost Professional Business Fraternity

TO THE BOARD OF DIRECTORS OF THE INTERNATIONAL FRATERNITY

DELTA SIGMA PI

Dear Board of Directors,

We, the petitioning members of the Iota Mu Beta Colony of Georgia College & State University, do hereby request a Chapter Charter of the International Fraternity of Delta Sigma Pi. We have continuously maintained the ideas of the International Fraternity of Delta Sigma Pi through our operations as a colony. We have shown our dedication, commitment, and responsibility by exceeding the minimum requirements to achieve chapter status.

We pledge to uphold the rules, regulations, and standards of Delta Sigma Pi as set forth in its Bylaws and Constitution in the pursuance of a Chapter Charter and continuing association with the fraternity.

Respectfully, the members of the Iota Mu Beta Colony:

RECOMMENDATION FOR THE IOTA MU BETA COLONY

The Iota Mu Beta Colony, whom your organization is considering for chapter status, requested that I submit information on their behalf.

As a colony, the group has been of great assistance to the School of Business. They have co-sponsored Dr. Donald Rataczak's past two annual Economic Forecasts here at Georgia College & State University. In addition they have assisted in giving tours of the School of Business to prospective students and their parents. Last year, the colony teamed up with the School of Business to participate in Relay For Life, and it plans to do the same this year.

The colony has been a pleasure to work with. These students are highly motivated and I would love to see them succeed.

RECOMMENDATION FOR THE IOTA MU BETA COLONY

The Iota Mu Beta Colony, whom your organization is considering for chapter status, requested I submit information on their behalf as the Dean of the School of Business and as a Delta Sigma Pi alumna.

I have worked with the colony members in their efforts to attain chapter status. It has been a pleasure to see this organization back on campus, as I was one of the chartering members of the Iota Mu Chapter in 1977. I have watched the colony's composition change dramatically from when it first started; yet the determination and dedication have remained.

These students have worked extremely hard to attain their goal of chapter status. They have continuously shown dedication and responsibility in their operations as a student organization. I look forward to working with this organization in the future.

JO ANN JONES, DEAN
THE J. WHITNEY BUNTING
SCHOOL OF BUSINESS

HISTORY OF GC&SU

History Of Georgia College and State University

Georgia College & State University is Georgia's designated public liberal arts university, with a residential campus in Milledgeville. Additional campuses are located in Macon and Warner Robins. Georgia College & State University enrolls students from almost all counties in the state, as well as from other states and several foreign countries.

Milledgeville is less than a dozen miles from the geographic center of Georgia and is the county seat of Baldwin County. It is approximately 100 miles from Augusta, Albany, Atlanta, and Columbus, and 30 miles from Macon. The town, which is the antebellum capital of Georgia, has a population of twenty thousand and is a center of history and culture. Located on the fall line in a setting of rolling hills and recreational lakes, Milledgeville's natural beauty is among its most appealing assets.

Georgia College & State University was chartered in 1889 as Georgia Normal and Industrial College. Its emphasis at that time was largely vocational and its major task was to prepare young women for teaching or industrial careers.

In 1917, in keeping with economic and cultural changes in the state, Georgia Normal and Industrial College was authorized to grant degrees, the first of which was awarded in 1921. With this change the college introduced more cultural enrichment courses, and the liberal arts degree was offered. In 1922, the institution's name was changed to Georgia State College for Women. In 1932, the state of Georgia created the University System of Georgia to include all state-supported institutions. Since that time the University has operated as a unit of this University System under one chancellor and a Board of Regents.

A graduate program was initiated in the summer of 1958, and the first Master of Education Degree was conferred in 1959. With an emphasis on broader academic and professional programs, the name was changed to Woman's College of Georgia in 1961. Integration was achieved without incident in 1964, although the number of black students remained low until after the university became coeducational in 1967.

With the admission of men, the college expanded the curriculum, provided residence halls for men, and changed the name to Georgia College at Milledgeville, which was later shortened to Georgia College. In 1996, the Board of Regents changed the name to Georgia College & State University. It also changed the mission, to serve the entire state of Georgia as its designated public liberal arts university.

As a coeducational school, the emphasis on teacher education was expanded to include a greater emphasis on business courses, increased graduate education, additional programs in the arts and sciences, and a nursing program. Commuter center

programs were also added to the college schedule. The first courses in the Master of Business Administration degree program were offered in 1969.

Continuation of quality and growth, both on the residential campus and at the commuter campuses and centers, makes Georgia College & State University an outstanding senior college for men and women in the central Georgia area. The residential campus consists of forty-three acres in the center of Milledgeville. Twenty-three acres provide the site for the major education facilities; 20 acres, two blocks away, are used primarily for student housing and the new Centennial Center. Many of the 30 buildings are red brick with Corinthian columns and limestone trim. The athletic complex, known as West Campus, is on a 546-acre site just outside the city. A few miles east of campus is another extension, known as East Campus (Lake Laurel). Lake Laurel is a teaching, conference, and recreation center with its own six-acre lake, picnic areas, nature trails, and rustic lodge.

With the approval of the Board of Regents, Georgia College & State University provides degree programs in specific majors through the Macon campus and Warner Robins. The Robins Commuter Center and the Logistics Education Center serve a major military facility. Throughout the 1900s, GC&SU offered graduate and undergraduate courses in business, education, nursing, and criminal justice at its Dublin campus. In 1999, the decision to discontinue programs in Dublin was made, in an effort to concentrate more resources on the Milledgeville campus in support of the university's new mission.

Former presidents of the college are Dr. J. Harris Chappell, Dr. Marvin M. Parks, Dr. J.L. Beeson, Dr. Guy H. Wells, Dr. Henry King Stanford, Dr. Robert E. Lee, Dr. J. Whitney Bunting, Dr. Edwin G. Speir. Dr. Rosemary DePaolo, the current president, assumed the presidency on August 1, 1997.

Georgia College and State University Accreditation's

Georgia College and State University is accredited by the Commission on Colleges of the Southern Association of Colleges and Schools to award Bachelors, Masters and Specialist degrees. Degree programs of the university are accredited by the International Association of Management for Educators, the Association to Advance Collegiate Schools of Business, the National Council for Accreditation of Teacher Education, the National Association of Schools of Music, the National Association of Music Therapy, and the National League for Nursing. The university is a member of the American Association of State Colleges and Universities, the American Council on Education, the Georgia Association of Colleges, and the Council on Public Liberal Arts Colleges.

**HISTORY OF
J. WHITNEY BUNTING
SCHOOL OF BUSINESS**

HISTORY OF THE J. WHITNEY BUNTING SCHOOL OF BUSINESS

The J. Whitney Bunting School of Business has a broad-based public service program which includes the Small Business Institute and the Center for Economic Education. An Advisory Board of leading business executives serves as a close link between the faculty and the business community.

The student who enrolls in the J. Whitney Bunting School of Business is first provided with educational opportunities in the broad areas of arts and humanities, natural sciences, and the social sciences. During the junior and senior years, there is an opportunity for in-depth understanding of the entire field of business, as well as for the selection of a major and/or minor field of study that is consistent with the individual's career objectives.

Georgia College & State University, through its J. Whitney Bunting School of Business, is nationally accredited by and is a member of AACSB, the International Association for Management Education for the offering of the following degree programs: (1) At the graduate level, for the Masters of Business Administration (MBA) and the Masters of Management Information Systems (MMIS) degrees; and (2) At the undergraduate level for the Bachelor of Business Administration (BBA) degree.

MISSION

The mission of the School of Business is to develop professionally competent and socially responsible individuals for careers in business, government, health care, and other organizations. The School of Business seeks to provide not only the skills of management, marketing, accounting, economics, finance, information systems, office administration systems, quantitative analysis, and communications but also to develop these skills in a cross-functional, integrated context so that students may meet the challenge of a dynamic global environment.

Quality teaching is our primary activity and major emphasis. Secondly, intellectual contributions which include basic scholarship, applied scholarship, and instructional development are valued. Finally, institutional and community service enrich our programs and learning opportunities.

The School of Business strives for continuous improvement through its processes and activities which support the missions of the school and Georgia College & State University. This management philosophy is premised upon the full participation of all of its constituencies.

ACCREDITATIONS

The Association to Advance Collegiate Schools of Business (AACSB)

School of Business

Discussion of Majors and Degrees Offered

The Bachelor's Degrees

BACHELOR OF BUSINESS ADMINISTRATION

The School of Business offers the Bachelor of Business Administration Degree with majors in accounting, information systems, international business, economics, general business, management, marketing, and office systems administration.

BACHELOR OF SCIENCE

The Bachelor of Science degree with a major in economics is offered.

GRADUATE DEGREES

The School of Business offers a Master of Business Administration, a Master of Management Information Systems, and a Master of Accountancy.

GENERAL BUSINESS ADMINISTRATION

The major in General Business is designed for the student who desires a broad background in all areas of business rather than specializing in one discipline of business. A major in General Business would be particularly appropriate for the person who is interested in operating or managing a business which does not have the resources to hire specialists in each area of business or for the individual wishing to operate his or her own business.

DEGREE AND MINORS OFFERED

Bachelor of Business Administration with a major in General Business Administration

Minors are offered in:

Minor in General Business Administration-Non-Business Majors Only

Minor in International Business-Business Majors

Minor in International Business-Non-Business Majors

BBA DEGREE WITH A MAJOR IN INTERNATIONAL BUSINESS

ACCOUNTING

The objective of the accounting program is to prepare the student to enter the accounting profession in a wide range of careers. The curriculum emphasizes the development of technical knowledge and procedures necessary to produce, analyze, and communicate financial information for both internal and external

users. The accounting graduate will be able to design, implement and maintain financial information systems and use this information to provide tax, audit and management advisory services for both profit and non-profit organizations. The student may also go on to graduate or law school.

CAREER INFORMATION

Individuals with an accounting degree will find employment opportunities in both the private and public sectors. In the private sector, graduates may seek employment with manufacturing or service companies emphasizing internal auditing, financial, cost or managerial accounting. Additionally graduates may pursue careers with Certified Public Accounting firms. These firms hire graduates to work in the areas of tax, auditing, and/or management advisory services. *Accounting graduates will also find employment opportunities in the public sector.* All levels of government hire accountants for positions in auditing, financial, tax and managerial/cost accounting. Not-for-profit institutions seek accountants to fill similar roles.

Accountants have a unique opportunity to obtain many different professional certifications. The most well-known designations are the Certified Public Accountant (CPA), the Certified Management Accountant (CMA) and the Certified Internal Auditor (CIA). Current education requirements to take the CPA in Georgia are a Baccalaureate degree and completion of a total of 150 semester hours of college credits. These hours must include 30 semester hours in accounting subjects above the elementary level and 24 semester hours in general business subjects at a four year accredited college or university. Appropriate undergraduate and/or graduate programs are offered by Georgia College & State University to meet these requirements.

DEGREE OFFERED

BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN ACCOUNTING

ECONOMICS/FINANCE AND MARKETING

The Economics, Finance, and/or Marketing Programs at Georgia College & State University have four main purposes:

1. To prepare students for positions in the various fields of business, economics, finance, or marketing.
2. To prepare students for advanced study in economics, finance, marketing, or business.
3. To provide economic analysis components for the university's general education core curriculum.

4. To provide economic analysis, marketing, and business ethics components for the School of Business curriculum.

CAREER INFORMATION

ECONOMICS--The Economics degrees offered by this department are designed primarily for students preparing for jobs in business or planning to pursue a graduate degree in the specialized field of economics.

MARKETING--The Marketing program prepares students for marketing and sales careers at the operational and managerial level.

DEGREES OFFERED

BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN ECONOMICS

BACHELOR OF SCIENCE DEGREE WITH A MAJOR IN ECONOMICS

BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN MARKETING

BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN FINANCE

Minors include:

Minor in Economics--Business Majors

Minor in Economics--Non-business Majors

Minor in Marketing--Business Majors

Minor in Marketing--Non-business Majors

INFORMATION SYSTEMS AND COMMUNICATIONS

COMPUTER BASED INFORMATION SYSTEMS--The standards established by the Association of Information Technology Professionals (AITP), Association for Computing Machinery (ACM), and the Association for Information Systems (AIS) in degree description and requirements are followed for the BBA degree with a major in Information Systems. The Information Systems Program is designed to develop an in-depth hands-on understanding of the use of information technology. The curriculum emphasizes technical knowledge of computer hardware and software systems, competency in applying systems analysis, design strategies, programming skills and network administration. The information systems graduate will understand how to identify and meet the information needs of organizational entities.

OFFICE SYSTEMS ADMINISTRATION-The Office Systems Administration program is designed to develop the technical expertise and professional skills needed for administering the functions of the modern office. Courses for the Office System Administration major are based upon the model curriculum developed by the Office Systems Research Association (OSRA). Office Systems Administration majors utilize computer software applications, multimedia, office technology, and business communication skills in the designated management of office systems.

CAREER INFORMATION

COMPUTER BASED INFORMATION SYSTEMS-The subject matter is designed to reflect the leading edge of technology and methodology in information systems, while being tempered by the practical demands of the business/industrial world. Information systems is a high-growth, high-demand area of education with the main goal of preparing graduates for entry-level applications programmers analysts, and network administration within various enterprise structures. Co-ops and internships are available to deserving students. OFFICE SYSTEMS ADMINISTRATION-Graduates of the office administration degree program are eagerly sought by employers because of their extensive computer applications knowledge, multimedia, and business communication skills. The graduates of the program are qualified to become administrative assistants, office supervisors, or executive assistants. Graduates possess skills essential for the modern information based office, both technical and professional. Co-ops and internships are available for qualified students.

DEGREES OFFERED

**BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN
COMPUTER BASED INFORMATION SYSTEMS**

**BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN OFFICE
SYSTEMS ADMINISTRATION**

Minors are offered in:

Minor in Business Communications--Business Majors

Minor in Business Communications--Non-Business Majors

Minor in Computer Based Information Systems--Business Majors

Minor in Computer Based Information Systems--Non-Business Majors

Minor in Office Systems Administration--(for Both Business and Non-Business Majors)

MANAGEMENT

The Management program's primary objective is to train students to develop the leadership skills, management techniques, and analytical and decision-making tools required in modern organizations. Students take a series of courses designed to explore all important phases of management ranging from behavioral to quantitative to strategic management.

CAREER INFORMATION

Management majors are prepared for administrative careers at the entry level in large and small organizations. The attention to human factors in organizations opens opportunities in personnel and related areas; quantitative training prepares the student for production and related aspects of product and service oriented business. Course work in Hospitality and Tourism Management is also available.

DEGREE OFFERED

**BACHELOR OF BUSINESS ADMINISTRATION WITH A MAJOR IN
MANAGEMENT**

Minors are offered in:

Minor in Management-Business Majors

Minor in Management-Non-Business Majors

**HISTORY OF
IOTA MU BETA
COLONY**

History of the Iota Mu Beta Colony

In the fall semester of 2000, four students - Herby Agnew, Matt Buttram, Tina Kirkland, and Ryan Saltamacchio - of the J. Whitney Bunting School of Business at Georgia College and State University contacted Dean JoAnn Jones in regards to reopening a local chapter of the International Fraternity of Delta Sigma Pi. Upon approval, Herby and Matt contacted the central office and received the necessary information. During the semester, several information sessions were held to determine interest among the student body.

On January 22, 2001, a national representative visited with the group to formally petition the central office for colony status. It was at this point that the Iota Mu Beta Colony of Georgia College and State University was established.

In the first semester as a recognized colony, many events were held to acquire points needed for chapter status. The events included the following: co-sponsorship of Dr. Ratajczak's annual economic forecast, Dr. Glover speaking on marketable skills, Harold Jenkins seminar on resumes and internship opportunities, "Icebreaker" recruiting event, Bowl for Kids Sake, acting as tour guides and Spring Fest 2001, Relay-for-Life, making "Goodie Bags" for the business school faculty and staff, a bake sale, two raffles, and numerous colony and executive committee meetings.

In the fall semester of 2001 many more events were held, including: Dr. Tom Moore speaking on self-retirement funding, Dean JoAnn Jones addressing the colony, participating in the business school's "Executive Week", "Meet the Brothers" night, Operation Christmas, a 50/50 raffle, and many more colony and executive meetings. Another exciting moment in colony history was ordering and receiving the first colony shirts.

In the spring of 2002, the colony members have held several events. These have included: "Meet the Brothers" night, "Movie/Game" night, co-sponsoring Dr. Ratajczak's economic forecast, and colony and executive meetings. January 22, 2002, also marked the Iota Mu Beta Colony's one-year anniversary. Members celebrated this occasion with a dinner social at a local restaurant. Many more events have been scheduled for the remainder of the spring 2002 semester (see spring 2002 calendar of events) as members progress through the pledging process. The colony is excited about participating in the events culminating with installation and full chapter status.

Expected Departure Dates of Members

Expected Departure Dates of Members

**IOTA MU BETA
PETIONING MEMBERS'
BIOGRAPHIES**

Herbert Allen Agnew II

Year: Sophomore

Major: International Business

Activities: Aside from having served on the stirring committee for the reestablishment of the Delta Sigma Pi chapter of the GC&SU campus, Herby's involvement on campus is extensive. He is currently the Vice President of the GC&SU Student Ambassador Team. He is also a member of the International Business Club and the Marketing & Advertising Club. He is privileged to be one of the few students to sing with the Max Noah Singers, an elite chorus that consists of sixteen to eighteen singers. He currently serves on other boards such as the Bell South Foundation – Grant Committee, the Minority Student Recruitment Board, and the Aids Ball Planning Committee. As a sophomore, Herby is looking forward to graduating and some day owning his own chain of clothing stores. Until graduation day comes, Herby can be found working hard to keep Georgia College & State University the awesome institution that it is.

LaQuita Anderson

Year: Junior

Major: Accounting

Age: 21

Hometown: Augusta, GA

Favorite Quote: "If you think you're too small to be effective then you've never been in the bed with a mosquito."
